the United States, writes under date of June 80, 1888, as follows:

For years I have suffered from abscasses which always formed on the back of my neck, and had to be cut from time to time to obtain relief. I need all sorts of blood puriners, but without avail. The abscesses would always reappear. I suffered very much pain until my physician advised me to use the genuine imported Carlsbad Sprudel Salia (powder form). I used this for about four weeks, and since that time I have been entirely free from the disease. My complexion cleared, and I have enjoyed good health ever since. I cannot speak too highly of this reality valuable remedy, and have recommended it to all my friends, who also speak of its wonderful effects as a laxative.

Yours very respectfully.

The Genuine Carlsbad Sprudel Salt Powder is put up in round bottles. Each bottle comes in a paper cartoon and has the seal of the city of Carlsbad and the signature of Eisner & Mendelson Co., Sole Agents, around the neck of every bottle. All others are worthless imitations. Pamphlets and Dr. Toboldt's lesture mailed free upon application. EISNER & MENDELSON CO., 6 Barclay St., N. Y., Sole Agents.

A LIETTER FROM MADAME ADELINA PATTI NICOLINL

CRAIG Y NOS CASTLE, Oct. 13. I must repeat once more my belief that there never has been anything equal in merit to the Becamier Preparations, my skin is so immensely improved by their use. It has grown so smooth and so fair that I need not dread old age while these magic inventions of yours exist. Oct. 31.—I use Cream, Baim, and Lotion every day of my life, and could not exist comfortably rithout them. Recamier Soap also is perfect. I hought other soaps good, but I had never tried the Recamier. I shall never use any other. It far sur-passes all toilet scaps. London, Dec. —. I hear the Princess of Wales is delighted with Recamier Preparaions. I shall certainly recommend them to Her Royal Highness when I next see her. I send you an autograph letter to inclose to the Princess of Wales. Later, from Spain—I cannot tell you how anxious I an to do all I can for the Recamier Preparations. I tell everyone here in Spain how much they have done for me. I have spoken to the Queen about them, and rom you telling me how I can best serve you there. I do want to help you, for I am convinced your Recamier Preparations are the greatest boon ever invented.

I could not comfortably endure a day without them.

ADELINA PATTI NICOLINI. You can have a beautiful complexion by using the Recamier Cream, provided you avoid all cosmetics. It will remove the damage caused by cosmetics. It will remove pimples, liver spots, blackheads and redness of the skin. Any of these imperfections on a woman's face is equivalent to a painted sign, saying: "This woman is uncleanly in her personal habits; she does not think it worth while to make herself attractive." end for free sample of Recamier Powder. GEN. HARRISON'S VISITORS, His Program for the Present Week. INDIANAPOLIS, Sept. 24 -Gen. Harrison will pass a day of comparative quiet, as no large visiting delegations are expected to-day. After a couple delegations are expected to-day. After a couple of hours' work in his library, the general came down to his office this morning accompanied by his law partner, W. H. H. Miller. The state fair having closed, the streets of the city have resumed their normal appearance. During the present week Gen. Harrison will receive the following delegations: To-morrow (Tuesday) will arrive a large delegation from Wabash City and Peru. On Wednesday the Tipper ance Veterans Club, of Columbus, Ohlo, and the Foraker Club, of Columbus, will be received. On Thursday a delegation from Xenia, Ohlo, and a large crowd from Fountain County, Ind., are expected.

The committee have reserved Friday as a day of quiet for the general.

Relieving the Quarantime Bleckade—
Militia Companies go on Duty.

Mamphia, Sept. 24.—A meeting of the joint committee of the cotton and merchants' exchanges and the city authorities was held to-day at noon. The stringent quarantine regulations which have been enforced since Saturday were amended by the adoption of the following:

That passes be issued upon the certificate of the president of the taxing district, or the president of the board of health, to persons to come in and out of the city who live in the city or its vicinity, and who will not go to any infected district. That this authority will also cover all cases of people desiring to bring produce or carry out supplies in wagons or other vehicles. Any persons who are at present at quarantine stations shall be permitted to come to the city upon permitte issued by the taxing district authorities, when satisfactory evidence is shown that they have not been in any infected districts.

The local military companies reported for duty to-day, and later will be assigned to duty as pickets on the dirt roads. to-day, and later will be assigned to duty as pickets on the dirt roads.

The following has been furnished the Associated Press, and is official: "The advisory committee from the cotton and merchants exchanges, in connection with the city and board of health authorities, desire to state positively and emphatically that the city of Memphis is remarkably healthy, and that we have had no yellow fever in our vicinity since 1879."

THE JACESONVILLE SITUATION UNCHANGED. JACKSONVILLE, FLA., Sept. 24.—This morning was cool and cloudy and rain has begun to fail, making damp, disagreeable weather. The situation is practically unchanged. Reports up to noon show lorty-nine cases, more than two-thirds of which iorty-nine cases, more than two-thirds of which are colored people. Five deaths are reported for the past eighteen hours: Antonio Chingi, an Italian; Chas. Hollins, a chiid; Eddy Cummings, Lizzie Fox, and Jas. Thomas.

The general situation indicates little prospect of improvement. Business is cut off by local quarantine throughout the state. More than half the stores are now closed, and others are doing but little business. Only one regular train arrives and departs each day on the various railroads, except those running to the beach. The railroad business is very smail. The boat lines on the river from this point have all stopped.

Against the Emperor's Wishes. WILLIAM DID NOT WANT THE ALLEGED EXTRACTS
FROM HIS PATHER'S DIARY MADE PUBLIC. Berlin, Sept. 24.—The Cologne Gazette publishes a semi-official dispatch from Berlin which states that the abstract of the diary of the late Emperor Frederick was published without Emperor William's knowledge and against his wish. The dispatch further states that the abstract contains a series of inaccuracies. Well-informed persons believe that the work as published was specially prepared. The original was mutilated and distorted and its real character destroyed by the deliberate selection of certain extracts. The parts published are not genuine throughout.

A SHORTAGE OF FIFTY DOLLARS.-When the bu ness of the day in the Redemption Division of the Treasurer's Office was closed up Friday afternoon Treasurer's Office was closed up Friday afternoon a disorepancy of about \$50 was discovered in the accounts. About \$40,000 worth of notes sent in for redemption were examined during the day, and when the accounts of the day were closed it was found that the books call d for \$50 more than the marks on the packages denoted. A re-examination of the packages was begun on Saturday moroing, but up to the present time it has not been finished. The notes being old, well worn, and mutilated, they are difficult to handle, and some time may be consumed in the count. Assistant Treasurer Whelpiey said this afternoon that there were no new developments as yet.

Privileges of Chinese Passengers. INTERPRETING THE CHINESE ACT OF 1882. Assistant Secretary Maynard has written a letter to the collector of customs at Port Townsend, Washington Territory, in regard to certain questions growing out of section 9 of the Chinese act of May 6, 1882, in controversy between the collector on one side and the U. S. attorney for that district and the special agent of the Department on the other. Judge Maynard says that upon consultation with the Solicitor of the Treasury the following conclusion in regard to the questions presented appears to be most consistent with the proper interpr tation of the law:

"A vessel bringing Chinese passengers found not entitled to land cannot be required to return the same as to a foreign port before being allowed to proceed on its voyage to other ports or places within the jurisdiction of the United States, but in such case the collector should endorse the descriptive the jurisdiction of the United States, but in such case the collector should endorse the descriptive certificate, if any, and the steamer's passengers list or manifest, with a statement of his action so that the officers of the customs at other ports where the steamer touches may be warned against permitting such Chinese passengers to leave the vessel. No Chinese passengers should be permitted to come on shore until they have been examined on board the vessel by the collector or his deputy and found to be entitled to land and remain in the Unit d States. No objection is perceived to conducting such examination by artifical light if the same can be done satisfactorily. You light if the same can be done satisfactorily. You will please adjust your practice accordingly."

Shutting Out the Chinese. THE BILL INTRODUCED BY SENATOR STEWART TO-DAY. A bill introduced by Senator Stewart to-day directs the President to inform the Chinese government that the maintenance of peace and good order of the people of the United States requires the abrogation of the treaty stipulations between China and the United States so far as they relate to the entry or residence in the United States of

to the entry or residence in the United States of Chinese subjects.

The bill prohibits the entry of any Chinese into the United States, except diplomatic and consular officers (who shall not be detained at any port at which they may land), and Chinese officials, students, merchants, and travelers for curiosity. Students, merchants and travelers shall only be allowed to enter at designated points, and shall be required to bring with them the permission of their government to come here. This permission and their personal identity shall be evidenced by a duplicate certificate made out by the representative of the United States at the port from which they sail. One of these certificates shall be kept by the Chinaman and one by the master of the vessel on which he sails. Both certificates shall be surrendered to the collector of cates shall be surrendered to the collector of customs before the Chinaman is landed and a certificate of identification issued in their place. Disputes as to the right of Chinese to land are to be settled by the collector of customs, subject to review by the Secretary of the Treasury. All Chinese now in the United States shall be required within six months to secure certificates of registration, and all Chinese found in this country after that period without certificates of identification or registration, shall be deported from the United States to the country whence they came. All Chinese leaving the United States shall be required to surrender was employed on the work as a civil engineer. Mr. Coryell's charges, which

the Government Printing Office cannot get the benefit of the thirty days' annual leave authorized by Congress until the expiration of a year, a d that meantime the employe must have served the year. The decision contravenes the express will of Congress which was that the thirty-day leave should take the place of the fifteen days, and that all employes entitled to the latter should have the former. In order that they might get the benefit of the longer leave the appropriation to pay for time consumed by leave of absence was doubled. Under the fifteen-day law \$90,000 was appropriated, but as soon as the thirty-day law was passed the appropriation was increased to \$180,000.

NARROW ESCAPE OF THE PRINCESS OF WALES.—
The London Sunday Times publishes a Vienna telegram saying that while the Princess of Wales and her daughters were out driving in a pony carriage near Ginunder the other day, they approached a Faliroad crossing without heeding an electrical bell giving warning of danger. When the carriage reached the track, two draw bars, worked by wire from signal boxes, were lowered, preventing either advance or retreat. Col. Clar., the escort, hurriedly dismounted, and, ducking under the bar, pusied the pony alongside the mace just as the train passed.

TO EXAMINE THE TUNNEL Liout, Townsend Says He Will Go Through it Thoroughly. WHAT IS SAID ABOUT CHARGES RESPECTING THE MASONRY LINING—THE MEN WHO MAKE THEM— HOW LIEUT. TOWNSEND'S INVESTIGATION WELL BE

The charges as to the character of the work lone in the new aqueduct tunnel, which, as THE STAR has stated, have been presented to members of the Senate District committee by persons formerly employed on the work, will probably thoroughly investigated, if not by the Senate District committee by the engineer offic-re in charge. Lieut. Townsend, who, as Maj. Lydecker's assistant, has immediate supervision of the work, told a STAR reporter to-day that he proposed to make a thorough inspection of the tunnel, sound-ing and drilling holes at short distances; to make, in fact, an examination such as could not fail to detect any defects that may exist in the work. Lieut, Townsend, in the conversation with the STAR r porter, said he felt very well satisfied that the work in the tunnel had been done correctly and felt very weil satisfied that the work in the tunder had been done carefully and thoroughly. These charges, however, especially since Gen. Boyaton had given them the weight of his name, were too grave to be ignored. The public, he said, had a right to know and to be satisfied as to the cuaracter of the work, and he hoped there would be a full investigation. THE KENDALL BROTHERS' CHARGES.

Lieut, Townsend said that the mechanics who

were engaged on the work ought to know if any-

one did whether the work was being done prop-

one did whether the work was being done properly or not. He for that reason paid more attention to the charges made by the Kendail Brothers, the bricklayers, in a letter they published a week ago, than to other charges made. In this letter it was alleged that the work of lining the tunnel, was not done according to specifications, and that in many places open spaces had been left from two to four feet between the brickwork and the excavation. Lieut. Townsend wrote, upon the publication of this letter, to Mr. William Kendail, asking to be informed at what points such spaces as he described had been left. In reply he received a letter from James T. Hunter, an attorney, who, writing for George and William Kendail, said: "I would state that the Kendail Brothers are prepared to go with any member of the Senate District committee and point out the imperfect parts and faulty work," and adding: "If it becomes necessary, in order to have investigation commence at once, will go with any person or persons designated by the proper authority who are thoroughly disinterested." Lieut. Townsend regarded this as a refusal to indicate to him the points where it was claimed that the defective work existed. He said that in making the investigation that he proposed he would go over first the work of the inspectors now employed on the tunnel, as it was said that in making the investigation that he proposed he would go over first the work of the inspectors now employed on the tunnel, as it was intimated that there was collusion between them and the contractors. Then he would examine the other parts of the work. Lieut, Townsend said that it there was anything wrong in the work he was the officer that was immediately responsible, for the selection or removal of the inspectors was left almost entirely with him. He believed the inspectors he had in his employ were honest and efficient. Some men he had refused to recommend for appointment because their faces were not honest. pointment because their faces were not honest. Some men had been removed for permitting care-less work to be done. There was an inspector, he said, at every point where work was going on, and the engineer officers were compelled to depend on DOING WORK OVER AGAIN.

There had been, he said, bad work discovered and it had been torn out and done over again. Scores of men had been discharged for doing care-Scores of men had been discharged for doing careless work. Some of this bad work, Lieut, Townsend said, he had discovered himself and ordered to be torn out. It was possible that there was bad or careless work in the tunnel that had not yet been discovered. Lieut, Townsend said that all of the men who were making charges were persons who had been removed from the work except two. He thought, however, that their statements should be heard, because sometimes the truth could be recalled only through such persons. The two men not removed were two of the Kendall brothers. As Lieut, Townsend understood it, two of the four Kendall brothers, bricklayers, were suspended or laid off, and the other two then struck.

At this point the committee adjourned until to-morrow. The amount involved is something over row. The amount involved is something over sum paid by Mexico in accordance with the terms of the Weil and La Abra treaty, but was withheld from the claimants by this Government on the allegation of fraut, the discovery of which was subsequent to the conclusion of the treaty. The claim on the one hand is that American purchasers of Mexican mining property were driven from their purchase after naving made costip preparations to work the mine; and on the other that the mine was valueless and the purchasers abandoned to their own accord.

DISTRICT DAY IN THE HOUSE. The Bill to Probibit Food Adulteration First Takon Up.

At 1:15 o'clock to-day the House proc eration of District of Columbia B Mr. Hemphili called up the bill to prohibit the manufacture or sale of any adulterated article of food or drug in the District. The bill was printed in full in THE STAR when reported to the Hou deals with the subject greatly in detail, and is sweeping in its provisions. Amendments by the House committee make the additional provision ibiting the "manufacture of any article of food which shall be composed in whole or in part

of diseased, decomposed in whole or in part of diseased, decomposed, offensive, or unclean animal or vegetable substance."

This amendment was adopted, and Mr. Atkinson, who took charge of the bill, asked for the third reading. Mr. Rogers demanded the consideration of the measure by sections, and raised slight objections to certain parts, and had adopted formal amendments to make it clear that the application of the law is to the District. formal amendments to make it clear that the application of the law is to the District.

Mr. Warner, of Missouri, wanted that the bill should be vary carefully considered to guard against annoying trivial prosecutions of honest business men.

Mr. Atkinson said that the bill had been very carefully considered in the District committee, and a was reported because it was absolutely necessary for the protection of the people of the District. was reported because it was absolutely necessary for the protection of the people of the District.

Mr. Rogers said he did not oppose the purpose of the bill; but he wanted it carefully guarded, so as not to work an injustice to honest business. He took exceptions to the section which provides that "if the defendant shall desire to reply upon any exception or provision contained in this act it shall be incumbent upon him to prove the same."

Tue bill was passed. THE HOUSE OF MERCY BILL PASSED.

Mr. Hemphill called up bill 3168, regulating admissions to the home of the Association in the District. The bill provides that girls under the age of eighteen may be given into the care of the association by their parents, or by their mother, if the father be not in the District, by their guardian, by their own act, or they may be sent there upon conviction of misdemanner by the courts.

THE PROPOSED BELT LINE EXTENSION.

Some days ago The Star referred to the application of the Beit Line Hadroad to run their tracks along 14th street to B street southwest, past the Bureau of Engraving and Printing. The application at the time created quite a stir among the residents of that section, who protested against the issuance of the permit on the grounds that it was not necessary, and that it would disrigure their street. To day Messrs. Chas. White and W. J. Cowing, representatives of the road, called on the Commissioners to further, if possible, the assuance of the p-rmit. The Commissioners declared to take the matter under advisement.

THE PROPOSED RECONSTRUCTION OF THE TOWER of the Church of the Covenant was talked over at some length at the District buildings to-day. A committee composed of Mr. Wm. It was decided to change the specificant.

It was decided to change the specifications, and apply formaily for the permit to build to-morrow. The principal change will be the backing of hard brick instead of rubbie as heretofore. Other changes and modifications will be made to meet with the requirements of the building regulations and the building inspector's recommendations.

Some days ago Mr. Samuel Norment in a letter to the Commissioners requested the improvement of 22d street, between M and O. instead of between O and P streets northwest. In reply to his request the Commissioners say that one cannot be substituted for the other, one reason being that the latter connects with the improved portion of P street, another that the Riding Ac demy is rendered dangerous by the excessive drainage coming down on the east, and the improvement of the street between O and P will provide for the drainage and relieve the Riding Academy from danger.

THE ARBITRATORS IN THE STRONG CASE.—The arbitrators appointed in the case of S. Strong against the District of Columbia.—B. Cady Herrick, Samuei D. Holliday and J. J. Darlington—met at the Treasury Department thus morning, but concluded that more suitable quarters could be found for their meetings at the court house, and adjourned to meet there this afternoon. At 2 o'clock they called on the marshal for a room, but as the case will probably last same time and as the courts are about reassembling, he doubted he could accommodate them, and they then went to the law school of Georgetown College, where accommodations were found. This arbitration is to settle the disputed accounts between the District and Mr. Strong for work done under the Board of Public Works. Mr. Strong is represented by Gen. Butler, W. A. Cook, and L. MR. PLUMB'S BILL. Senator Plumb introduced a bill offering a re the bill; but he wanted it carefully guarded, so as not to work an injustice to honest business. He took exceptions to the section which provides that "if the defendant shall desire to reply upon any exception or provision contained in this act it shall be incumbent upon him to prove the same."

Mr. Warner proposed to strike out the whole section, which, he held, antagonized common law principles. This motion was rejected by a vote of 8 to 7.

could not obtain a conviction under section 10 of the act, and he would therefore abandon the case and ask that the court give judgment for the defendant. At the same time he desired to notify Chong's counsel, Mr. C. M. Smith, that he would on Wednesday next have an information against him under section 1 of the same act. He wanted to know if there was any law punishing the keepers of opium joints with their attending vices, and if there was not he thought t. at Congress should be appealed to for such a statute.

Special Officers Must Mind Their Own Business,—"Hereafter you had better attend to your own busin ss and let other people's business alone," is the advice Judge Miller gave to Walter Scott, a colored special or additional policeman, who charged a small white boy, named Walter Moreland, with using profanity. When first asked about the case the negro stated that the boy said "damn," and he told the boy if he said that again he would "put the oil on him." When again asked about the case Scott made the language worse. The judge then told him that he was paid to watch buildings. "No, sir," interrupted Scott, "to watch houses." The judge then told him that the regular officers were paid to do police duty, and that if he would stay where he is paid to stay, and do what he is paid to do, he would find enough to keep him busy. Every day, the judge said, some "special" comes here with a case, and he was sick of it. The case was dismissed.

A Dangerous Character.—John Ryon, a tinner, who lives at 3d and Boundary streets northeast, was released from jall Saturday, where he was serving time for assaulting his father. He got drunk Saturday evening, and when he went home he again assaulted his father. Officer Kimmel arrested him, and he was locked up at the sixth precinct station. There were a great many pr somers in the station at the time, and the officers found it necessary to put him in a cell with another prisoner named Joseph Coyle. During the night Ryon became enraged at something said by coyle and proceeded to assault him. This afternoon Ryon was placed on trial in the Police Court for the two assaults. His father testined that when his son returned home Saturday night he threatened to kill him and assaulted him. Coyle, whose nose showed the effects of the assault, gave testimony against Ryon. Officer Kimmel neard Coyle cry "murder" and saw Coyle being held against the door by Ryon. Officer Slack testined that he had known the old man to have to sleep out on the commons in cold weather because he was afraid of the boy. The judge told Ryon that he ought to be ashamed of himself; that if his father was anything like his size or age he would not go within a square of him. He was fined \$20 for assaulting his father and \$10 for assaulting Coyle. A DANGEROUS CHARACTER.-John Ryon, a ting

NORTHWEST HAPPY.

The rise in the price of cash wheat in Chicago to \$1 per bushel, is, according to a paper in that city, an event or national importance, and is particularly a matter on which the Northwest may construct the Northwest may gratulate itself. The price is a sort of dead line in the market, as it has been declared over and over again by men in Chicago whose opinions command respect, that the day of the dollar wheat was past forever. Nevertheless that price was made Saturday for the cash stuff. It is five years since wheat so,d at \$1 bushel, and meanwhile it has been down to 66 cents, aithough it has sold as high as \$2.76 within the business life of several men in active business. Last year at this time No. 2 spring wheat sold in Chicago at about 70 cents, the range for September being 67% cents to 71% cents, and the average 69% cents. Call the advance 30 cents, the increase in the value of the wheat crop of the country is over \$128,000,000, an enormous addition to the wealth of the United & atea. The merchants and bankers, it is said, are watching the grain market with unusual in terest. It is contended that the board price list will make all the difference in the world to their trade and financial operations for the next twelve months.

Mr. Wood's wife and son were seen. When
asked if there was any truth in the
statement that Mr. Wood had disappeared,
Mrs. Wood said: "At first we thought
something had happened to him, and sent his picture to the Boston police authorities to look into
the matter. Since then we have received a
letter from him, dated Thornton's Ferry, N. L.
The trouble of the whole matter was that he
stopped at Bedford, Mass., to visit a cousin and
failed to let us hear from him. He is all right." A Woman Kicked Until Unconscious

JAMES ROONEY CHARGED WITH ASSAULT AND BATTERS WITH INTENT TO KILL.

Jas. Rooney, a bartender, was placed under arrest last night near the Baltimore and Potomac depot by Sergt. Byrnes, and was locked up at the first precinct station, charged with assault and battery, with intent to kill a woman named Mary battery, with intent to kill a woman named Mary Birch, with whom, is is alleged, he has been living at No. 1314 C street north west. The alleged assault, which was committed last Thursday, it is charged, was a brutal one, and the woman is dangerously ill. If the woman had not grown worse after the assault was committed it is possible that the police would not have known of the affair. She was in her room at the house mentioned when Rooney called. He had been drinking, and so far as is known that was the only cause of the trouble. copyrighted remedy \$100,000 shall be paid to the discovers of the remedy.

> More Bluffing Than Betting. SOME OF THE BONA-FIDE WAGERS LAID ON THE PRESIDENTIAL ELECTION. From the New York World, to-day.

There has been a luli in the actual betting for several days. "Mouth bets" have been made on both sides, but very little money has been put up for several days. A number of bookmakers have signified a willingness to back Cleveland at odds of ten to eight, but they have found very few republicans willing to accommodate them. Commissioner Jacob Hess, who offered to bet Myron Bangs last week \$20,000 even that Harrison would win, declined to extend the same offer to a bookmaker who waited on him. The \$20,000 represented a pool made up by a number of gentlemen, and Mr. Hess said he returned the money when Mr. Bangs declined to bet. Mr. Hess says, however, that he has no desire to make bets with professional gambiers. Most of his bete are with Iriends or acquaintances.

A noticeable feature of the betting on the election is the careful manner in which parties with money to put up avoid each other. It seems to be almost impossible to get two persons together who are anxious to bet. Both sides indulge in a great deal of talk when they are quite sure that no one is around with money to put up. When asked to for several days. A number of bookmakers have

Moore & Pyne's, on 23d street, \$1,000 was deposited last week to be bet even on Cleveland. The money is still unchallenged.

Ex-Judge Fitch, who is quite a well-known character around the republican headquarters, is bubbling over with confidence in the success of Harrison. He has made a wager with a friend to wear a continental suit of cleveland wins.

Senator Coggeshall, of Oneida, made a bet of a hat with Senator Ives last summer that Harrison would come down to Harlem with 50,000 majority. Mr. Coggeshall thinks the hat is as good as won, He has also agreed to buy Mr. Ives a suit of clothes in the event of Mr. Harrison's defeat. After the local tickets are in the field hereit is thought that the betting will get more lively.

The Duke's Kindly Condescension. From "France Beneath the Aristocracy."

There has never been an instance of "graciousness" like the visit of the Duke de Nivernals, in the seventeenth century, to his dying steward.

the seventeenth century, to his dying steward. Wishing to see how matters stood with the poor feliow, the duke stepped into the room, and had the extreme condescension to make personal inquiry into the state of his health. The steward, utterly bewildered by the honor, raised himself in his bed with great difficulty and said, in a tone of the most abject humility: "I hope your lordship will not be offended at my dying in your presence?" The duke, deeply touched, answered: "Not in the least, my good friend; do not mind me." Whereupon the steward availed himself of the gracious permission of his master and gave up the ghost.
